

Border Force

Student arrivals: 10 top tips

Coming to the UK to study this year? Here are Border Force's top ten tips to make sure you have everything you need for a smooth arrival.

1 Complete your landing card

If you're from a country not in the EU or European Economic Area, please complete the landing card given to you during your flight before you arrive at border control.

2 Have your passport ready

Remove it from any cover, and remember to remove sunglasses and hats before reaching border control.

3 Keep information about the course you're studying in your hand luggage

This must be in paper copy (not an electronic copy on a tablet or phone). This includes your university confirmation of acceptance for studies (CAS) number.

4 Keep recent bank statements and details of where you are staying in your hand luggage

Border Force officers may ask to see this information.

5 Expect Border Force officers to ask simple questions

Expect Border Force officers to ask simple questions about your stay in the UK when you arrive at passport control.

10 Never give false or misleading information

Never give false or misleading information (including forged or counterfeit documents).

9 You must declare cash of 10,000 Euros or more

You must declare cash of 10,000 Euros or more (or the equivalent in another currency) if you are travelling from a country outside the EU.

8 Why not become a Registered Traveller?

If you plan on travelling in/out of the UK more than four times this year, why not become a Registered Traveller. Members do not fill in landing cards and are able to access ePassport gates. Find out more here: www.gov.uk/registered-traveller

7 There are also restrictions on the amount of tobacco, alcohol and gifts you can bring to the UK

If you exceed your duty-free allowance and do not declare them, all of your items could be taken away from you.

6 Do not bring in any meat or dairy products from outside the European Union (EU)

There are restrictions on traditional medicines, food products such as fish, eggs and honey, and some fruit, vegetables and plants (including bulbs, seeds, cut flowers and tree bark).
